To whom it may concern;

I have known Chrissy Benoit since 1996 when we met during the opening of the largest Wolfgang Puck Café in the US. We have continued to stay in touch and have collaborated on many projects. I own a company that does marketing and promotions for many restaurants. Often times I meet clients who are stuck for various reasons and need help. I always send them Chrissy Benoit's contact information. Some people realize they need help in menu development, or do not understand their food costs so do not know what we should use for marketing. Some of my clients need help with licensing, or how to execute events, you name it Chrissy Benoit can assist them, so their money is not wasted in these marketing efforts.

In the many years I have known Chrissy Benoit I would never hesitate to recommend her. She is patient but knows how to lead the customers to the success they are aspiring to. This makes my job easier as a marketing person and the client more confident in their business choices. The goal is a win win and sometimes people need help to get there.

Please do not hesitate to call me with any further questions you may have.

Regards,

Giovanni Rodriguez
